

Support for the Circular Economy

SUPPORT FOR INTERMEDIARY ENTITIES IN THE CIRCULAR ECONOMY

KEY WORDS

STRENGTHENING,
CIRCULAR ECONOMY,
RECYCLING

DESCRIPTION

UNRN has interdisciplinary research teams and experience in providing support and capacity building to intermediary organizations related to the circular economy, particularly regarding the recovery and valorization of different types of municipal solid waste, especially plastics. This experience is demonstrated through outreach and engagement work in Viedma and San Carlos de Bariloche cities, collaborating with Cotranvi Cooperative and Bariloche Recyclers Association, respectively. Within this framework, training programs, outreach/extension projects, and participation in inter-institutional discussions on Integrated Solid Waste Management policies have been developed, among other initiatives.

APPLICATIONS

- Technical and organizational guidance for circular economy entities
- Strengthening institutional capacities
- Monitoring and evaluation on Integrated Solid Waste Management public policy
