

# Intellectual and Industrial Property

INTELLECTUAL AND INDUSTRIAL PROPERTY  
CONSULTING IN PROBLEM SOLVING

## KEY WORDS

INTELLECTUAL  
PROPERTY,

INDUSTRIAL  
PROPERTY,

PATENTS

## DESCRIPTION

Guidance, management, and support are offered with a focus on intellectual property and its branches of industrial property (patents and utility models, industrial designs, distinctive signs) and copyright (registration of works, registration of software). The design and implementation of technological devices for solving problems in companies, institutions, and research groups is promoted. We have the capacity to assist in technological searches using digital tools and information retrieval in databases specializing in industrial property and technology transfer (technological maturity, calls for registration, commercialization).

## APPLICATIONS

- Producers of containers, packaging and plastic-based items
- Researchers or areas of innovation in plastic companies
