

Formulation of IWMP

ANALYSIS OF PLASTIC PACKAGING WASTE MANAGEMENT

KEY WORDS

SYSTEMATIZATION,
FLEXIBLE
PACKAGING,
INTEGRATED WASTE
MANAGEMENT PLAN
(IWMP)

DESCRIPTION

Universidad Central (UC) has capabilities to provide technical advisory on the formulation of Integrated Waste Management Plans (IWMP) focused on the packaging industry, with specialized experience in flexible plastics. Through systematic reviews and technical assessments, opportunities are identified for the recovery of polyethylene, including reintegration into the production chain, manufacturing of new products, or incorporation of more efficient technologies, thereby strengthening sustainability and efficiency in production processes.

APPLICATIONS

Manufacturers of plastic-based containers, packaging and components
