

# Sustainable Innovation Project Management Methodologies

STRUCTURING AND INNOVATIVE PROJECT MANAGEMENT THROUGH AGILE AND SUSTAINABILITY-DRIVEN APPROACHES

## KEY WORDS

METHODOLOGY,  
INNOVATION,  
SUSTAINABILITY

## DESCRIPTION

Development of methodologies for managing sustainable innovation projects that integrate agile approaches, user-centered design and sustainability criteria from early stages. These methodologies support planning, execution and evaluation considering impact, feasibility and scalability

## POTENTIAL BENEFITS OR IMPACTS

- Increased efficiency in innovation project management
- Early integration of sustainability criteria
- Improved coordination of multidisciplinary teams
- Higher success rates in innovation projects

## TECHNOLOGY MATURITY LEVEL (TRL)

TRL 2: formulation of the technological concept

## AREA OF APPLICATION

Project management
