

Composting and Biodegradation

EVALUATION OF THE BIODEGRADABILITY RATE UNDER CONTROLLED COMPOSTING CONDITIONS

KEY WORDS

COMPOSTING,
BIODEGRADATION,
BIODEGRADABLE
MATERILAS

DESCRIPTION

Evaluation of materials that biodegrade under a composting process through the action of naturally occurring aerobic micro-organisms within a specified timeframe.

AVAILABLE TECHNIQUES AND/OR EQUIPMENT

Composting cells

APPLICATIONS

Evaluations of biodegradable materials under controlled composting conditions

Material's biodegradability comparison
