

Diploma in Circular Economy and Waste Management

KEY WORDS

CIRCULAR ECONOMY,
WASTE,
EPR LAW

MAIN CONTENTS

This program addresses circular production models, Extended Producer Responsibility Law, integrated waste management, ecodesign, regulatory analysis, and operational excellence in sustainability. It includes case studies, applied work in modules, and a practical approach to implementing circular strategies.

COURSE DYNAMICS

This diploma program is delivered online in a synchronous format, with live classes, applied activities for each module, and in-class work to reinforce the content. The sessions combine theoretical presentations, guided exercises, and analysis of real-world implementation experiences.

LANGUAGE

Spanish

EVALUATION METHODOLOGY

Assessment per module through practical in-class activities and guided exercises. Includes online tests and progressive evaluation aligned with each module's content, including regulation analysis and applied work.
