

# Techniques for Managing and Reducing the Environmental Impact of Packaging

## KEY WORDS

CIRCULAR ECONOMY,  
PACKAGING,  
EXTENDED  
PRODUCER RE  
SPONSIBILITY (EPR)  
LAW

## MAIN CONTENTS

The course covers sustainability and circular economy concepts for packaging, how to classify new lower-impact packaging materials, and how to apply responsibilities and concepts related to biodegradability, compostability, and ecotoxicity of packaging materials, aligned with Chile's Law 20.920 (Extended Producer Responsibility / "Ley REP") for packaging producers..

## COURSE DYNAMICS

E-learning format, delivered in 4 sessions

## LANGUAGE

Spanish

## EVALUATION METHODOLOGY

Assistance
